eSENTIRE

MANAGED DETECTION AND RESPONSE SERVICE

ABOUT

eSentire is a multi-signal threat intelligence service that provides 24/7 cutting-edge protection to prevent cybercriminals from disrupting your business.

eSentire is recognised industry wide, renowned for its complete threat response capabilities.

eSentire's powerful Atlas Extended Detection and Response Platform ingests network, cloud, log, endpoint, and insider threat signals, correlating indicators of compromise to detect, respond and automatically disrupt threats in minutes - with a Mean Time to Contain of less than 15 minutes.

BENEFITS OF MDR *(Managed Detection & Response)*

- ✓ Mean Time to Contain: 15 minutes
- ✓ Automated Detections with Signatures, IOCs and IPs
- ✓ 24/7 Always-on Monitoring
- ✓ Multi-signal Coverage and Visibility
- ✓ Detection of unknown attacks using behavioural analytics
- ✓ Security Network Effects
- ✓ Rapid human-led investigations
- ✓ Real-Time Threat Intelligence

MULTISIGNAL: 4 Points of Entry of MDR

NETWORK	Monitors your network traffic around-the-clock using proprietary deep packet inspection and advanced behavioral analytics.
ENDPOINT	24/7 threat hunting, deep investigation and complete threat response to automatically block known, new and fileless cyberattacks.
LOG	Provides critical visibility, data correlation, deep investigation & enhanced threat detection enabling complete response across hybrid environments.
CLOUD	Detection of cloud-based vulnerabilities, misconfigurations, and suspicious activity across any cloud environment

eSentire's Incident Response (IR)

When disaster strikes you need an incident response partner that can react with industry-leading speed and efficacy. Having immediate access to expert on-demand cyber forensics and incident response services brings rapid control and stability to your organisation when a breach occurs. It can be the difference between a catastrophic day and just another day at the office because how fast your organisation can contain and recover from a security incident is critical to limiting business disruption, reducing costs, and salvaging reputational damage.

eSentire's On-Demand 24/7 Incident Response service provides you peace of mind with the fastest threat suppression in the industry and the guarantee that you're prepared for even the most advanced attack. Through a combination of best-in-class digital forensics technology and elite responders, we can suppress a cybersecurity incident, anywhere in the world, within 4 hours.

BENEFITS OF IR

- ✓ 4-Hour Remote SLA
- ✓ End-to-End Incident Management
- ✓ On-Site Incident Responders
- ✓ On-demand 24/7 Response
- ✓ Asset Handling
- ✓ Robust Reporting
- ✓ Compliance Satisfaction
- ✓ Managed Containment

OUR OFFER

Managed and deployed by CCNA, our mission is to keep your data secure. Our managed service is an end-to-end cyber coverage. With the initial implementation and ongoing support, we will provide you with a transparent, in-depth threat analysis report regarding the detection of unknown attacks and security recommendations.

Our team will notify you of all threat activities via the eSentire portal and our response to these cyberattacks.
